8. I am sorry I am unable to agree to the proposal under consideration. It raises a very important question of principle - to what extent the Government will be justified in interfering with the ryot in the disposal of his produce. In my opinion, the agriculturist should ordinarily have a free hand in the disposal of his produce and should be allowed to take full advantage of any rise in the prices thereof, and the Government should not interfere with him unless it is absolutely necessary to do so. In the case of the staple foodstuffs like ragi and rice, the interference of Government might be justified on the ground that it is quite necessary for saving life and preventing deaths from starvation, but the same argument cannot be applied to pulses such as black, green gram etc. If we begin to control the traffic in these cereals on the ground that their prices would otherwise go up abnormally high on account of their unrestricted export, the British Provinces and the Native States might with equal reason retaliate by prohibiting the export to Mysore of dhall and other articles of necessity for which we have to depend mainly for our supply from outside. Moreover the ragi and paddy crops this year having been more or less a failure in many places, the ryots have to look to the income from the other subsidiary crops for meeting their assessment and other demands and it will act as a very great hardship on them if they are not allowed to turn this crop to the best account by taking advantage of the higher prices prevailing therefor in the outside market.

No. 114
Enc.

OFFICE OF THE PRESIDENT, 15
CITY MUNICIPAL COUNCIL, MYSORE.

Dated 24th Dec. 1918.

DIARY NO. 10366.

FROM,

RAJASABHABHUSHANA DIWAN BAHADUR,

C. SRIKANTESVARA AIYAR, B.A., B.L.,

PRESIDENT, CITY MUNICIPAL COUNCIL,

MYSORE.

To,

C. S. Balasundaram Iyer, Esquire., B.A.,

Chief Secretary to the Government of His Highness the Maharaja of Mysore.

SIR,

In continuation of my letter No. 92 dated 23rd November 1918 and 103 dated 16th December 1918, requesting to bring under control the export of Hesaru and other subsidiary food stuffs, I have the honour to state that practically $\frac{3}{4}$ths of the new harvest of Hesaru etc., have already found their way out and that in consequence, on my inspection round yesterday, I found that Hesaru which ought to be selling now at 14 to 16 seers the rupee was selling at $2\frac{3}{4}$ seers per rupee !! There has been a loud complaint from the merchants as well as the citizens that unless immediate steps are taken to bring these necessary and also essential food stuffs under control, we shall soon be without them and will have all the trouble to find the means of importing them later, from elsewhere.

2. In this connection, I may also submit for the information of Government that when the first meeting of the leading merchants and citizens took place under the Presidency of the then Extra Member of Council, at which the Director of Food Supplies was also present, the subject of controlling such food stuffs, especially chillies, was discussed and it was

was distinctly understood that they would all be brought under control.

3. I have accordingly to request that you may be so good as to move the Government to pass very early orders on the subject. I also understand that the United Provinces, North Western Provinces and Bombay Governments have lately prohibited the export of pulses outside their local areas. The major portion of Hesaru, Uddu and Alsande from Mysore is being exported to Bombay Presidency at present.

4. What is now asked for is not absolute prohibition of export as those Governments have done, but to bring these food stuffs under control i.e. to permit only such export as may be found absolutely necessary or desirable under priority certificates.

I have the honour to be,

Sir,

Your most obedient servant,

Sri Kanth Narayan

President.
